Lyceums and Dreadnoughts Meet in City Basketball League Game

OTHER SPORT GOSSIPS

Baseball Teams Are Organizing, and Indications Point to a Big Season on the Diamond

Tonight is the big night in local basketball circles, for the Dreadnoughts and Lyceums hook up in a City Basketball League contest at the Armory and the fur is sure to fly.

These teams are battling tooth and nail for top honors, with the Dreadnoughts way in the lead so far, but Manager Wheatley of the Lyceums declares his club will turn the tables tonight. The Dreadnoughts won the first contest between the teams, 23 to 21, while the Lyceums forfeited the second engagement, due to the death of the father of two boys and the father-in-law of another. The third scheduled meeting is tonight.

The Dreadnoughts will more than likely be minus the services of Tony Drilly and Roberts, although Roberts played Wednesday night against the Collegians. His work, however, was way below par, owing to his inability to cover ground with an injured knee. The Lyceums will be forced to play without Kemp and Frank Cockrell and Theron Hayden from the latest reports. This will put the teams on about a par on the floor again.

President Duffy of the City League will be on hand to see that the contest starts promptly at 8.15 o'clock. Ropes will be stretched, and spectators are urged to get in early and avoid the rush at the last minute, as the ropes will be placed across the floor promptly at 8.10, and the late comers will be forced to view the contest from the entrance side of the Armory.

A meeting of the City Basketball League has been called by Secretary Ed Allen for 2 o'clock, Sunday afternoon at the Community Center, and every manager is requested to put in an appearance. Matters of the utmost importance will come up for consideration, including action on the two protested games.

The Virginia Athletic Club will hold an important meeting Saturday night at the Community Center, Prince and Royal Streets. All members should attend.

Ball players who desire to try for positions on the Alexandria Community Service club are requested to attend a meeting Wednesday night at 8 o'clock at the Alexandria Community Service Center, Prince and Royal streets, and hand their names to Captain Rosy Hayden previous to the meeting if possible.

The Dreadnought Athletic Club was organized last night with the following officers: President, J. M. Duncan, vice-president, B. L. Burgardine, secretary, Charles E. Corbett, treasurer, Albert Dreifus, Johnny Wenzel was elected captain of the basketball team, Howard Loverian track; Billy Crouch, football; Carl Mueller, wrestling; and Johnny Bergin, boxing. A membership of close to fifty will be the starting point of the club, and charter members will be admitted up to March 1. A smoker will be held March 12th. The next meeting will be held Saturday night at the Community Center at 7:30 p. m. Various committees were appointed to report at the next meeting.

One of the snappiest and best games of the season was witnessed last night at the Lyceum when the Alexandria High School Third team was defeated by the Lyceum Juniors. The score was 20 to 11. This game puts the Lyceum team the junior champions of the city.

Travers played well for the losers but the team work of E. Whitestone and Bayliss, of the Lyceums, was the finest playing of the game.

Trumble and Jalbert's defensive work was good, while L. Kersey's shooting was unexcelled. J. Tulloch, the referee, gave both teams a square deal.

The Columbia Athletic Club defeated Belting Field at McBurney's Hall last night. Columbia was an

easy winner over the Aviators. Mende and Nowland starred for the C. A. C., and the summary was 32 to 26. The Columbia's play Royal A. C. tonight at McBurney's Hall at 8:15.

AMERICAN LEGION DANCE

Shepperson, Mrs. Percy Evans, Miss Esther Green and Miss Sarah Cox compose the refreshment committee. The first dance of this organization was such a success that committees have been appointed to continue the series for the remainder of the season.

House Committee Ends Inspection and Decides to Retain Activities

Norfolk, Va., Feb. 20.—The House Naval Affairs Committee, following the conclusion of its hearing and inspection yesterday at the naval operating base at Hampton Roads, having received assurance from the city officials of Norfolk and Portsmouth that an adequate supply of pure water would be continuously available for the base, announced that activities at the base would continue.

Whether or not the Government would purchase the east camp site, on which \$6,000,000 has been spent for improvements, was not definitely determined. The committee sailed on the Mayflower late this afternoon for Washington.

IN MEMORIAM

LANGLEY—In sad but loving remembrance of my dear mother, SARAH JANE LANGLEY, who departed this life two years ago today, February 20, 1918.

The month of February once more is here,

To me the saddest of the year,
Because two years ago today,
My dear mother passed away.
From this world of grief and trouble,
To the home of peace and rest,
God has taken my dear mother,
To the home of eternal rest.

In sad but loving remembrance of our dear mother, MRS. SARAH J. LANGLEY, who departed this life two years ago today, February 20, 1918.

We miss thee from our home, dear mother,
We miss thee from thy place,
A shadow o'er our life is cast,
We miss the sunshine of thy face.

We miss thy kind and willing hand,
Thy fond and earnest care,
Our home is dark without thee,
We miss thee everywhere.

In sad but loving remembrance of my dear mother, MRS. SARAH J. Langley, who departed this life two years ago today, February 20, 1918.

Weep not that her toils are over,
Weep not that her race is run,
God grant we may rest as calmly,
When our work, like hers, is done.

Till then we yield with gladness,
Our mother to Him to keep,
And rejoice in the sweet assurance
He giveth his loved one sleep.

MOVEMENT FOR A STATE CONVENTION

Constitution Amended Four Times Since it Was Adopted

"GREAT CODE OF LAW"

Method of Publishing Proposed Amendments in Each Paper in the State Unsatisfactory.

Richmond, Feb. 20.—Classifying the constitution of Virginia as a "great code of laws" Senator Cannon took up the cudgels yesterday in defense of his bill which places the question of calling another constitutional convention before the voters at the November election. He called attention to the fact that the constitution has been amended four times since it was drafted and that six additional amendments were passed by the general assembly at the 1918 session.

All of these have been published he said, at great cost to the state. It was in consideration of the expense and also of the unsatisfactory method of amending the constitution that the senior senator from Richmond introduced his bill.

The method of amending, he said, had not worked at all well. After the general assembly has concluded that an amendment is necessary and has passed a joint resolution accomplishing the desired aim, the amendment is advertised in every paper in the state and submitted to the people at the polls.

The fallacy of letting the people decide on these proposed changes, said Senator Cannon, is that not over five out of every 100 reads the amendments, the consequence being that they are forced to vote on something that they know nothing about. This results, he said, in the rejection of amendments which would be adopted if they were thoroughly understood.

Senator West opposed the bill, pointing to the experience of New York state, where the work done at the convention was rejected by the general assembly, as proof of his argument.

Senator Leedy asked the senator from Suffolk several questions.

Senator West had stated that few of the ten proposed amendments now pending would be adopted, saying this in an effort to minimize the cost of the present system.

Senator Leedy asked if he was not a patron of two resolutions amending the constitution.

Senator West replied in the affirmative.

"At that rate" said the senator from Page, "there should be eighty good reasons in this body for calling the convention." He then asked him if he did not, "as a good Democrat" advocate submitting the question to the people for final decision.

Adjournment was taken in the midst of the argument and the matter will probably be voted on today.

DEFERS CABINET MEETINGS

President Back at Work in His Study, But Deems it Unwise to See Advisers

Washington, Feb. 20.—President Wilson, while demonstrating yesterday more than ever before during his illness, that he is back at work, has not yet apparently reached the point where it is considered wise for him to meet with his cabinet.

Although earlier in the week there were indications that he would call a cabinet meeting for today, no notices for this went out last night, and Dr. Grayson, his physician, said that he still continued such a meeting unwise. It is now two weeks since the last meeting was called by Mr. Lansing. The President has not been a member of his cabinet in that time. Even in the Adriatic matter all his consultations with Acting Secretary Polk is done in the form of memoranda.

The President, however, spent several hours yesterday morning in his study working on his latest Adriatic note, stopping at 11 o'clock and then going out in his wheelchair on the porch.

INVESTIGATING DRY DEPARTMENT

Measure Passed by Tempo- rarily Virginia House of Delegates

CO-PATRONS ABSENT

Resolution Provides for Appointment of Five Members of General Assem- bly and State Accountant.

Richmond, Feb. 20.—Because of the absence of some of the co-patrons of the Joyce joint resolution, calling for a full investigation of the department of prohibition, that measure, at the request of the principal patron, was passed by temporarily yesterday when Speaker Brewer laid it before the house for action.

The resolution, providing for the appointment of five members of the general assembly—three by the speaker of the house and two by the president of the senate, with the state accountant acting ex-officio—had been reported favorably from the committee on moral and social welfare, after a brief public hearing had been granted.

As the measure was originally drawn, it provided that the governor should name two of the members of the investigating committee, giving the executive perfect freedom in the selection of his appointees. Opposition to this latitude developed early, however, and it was so amended that he would have to confine himself to members of the legislature. Further opposition finally resulted in the elimination of the chief executive and, as the resolution now stands for five appointments will be made by the presiding officers of the senate and house.

Rev. David Hepburn, president of the Anti-Saloon League of Virginia, left Murphy's hotel, where he has been confined to his bed for some time a victim of influenza, to appear before the committee to protest, not against the proposed investigation, but against the methods of selecting the investigators.

He contended that it was unusual for the governor to be called upon to select members of the legislature to serve on a legislative investigating committee and held that this instance, as in all others, the usual course should be pursued, that is, the presiding officers should make the selection.

Mr. Hepburn also declared that an investigation is very unusual when a specific charge has been preferred against the department to be investigated. Mr. Joyce, he said, had told the committee that a bad atmosphere had grown up around the head of the department and that, for that reason an investigation is in order. Such an atmosphere, Mr. Hepburn held, has been created largely by men who have consistently opposed prohibition and all the means provided for making it effective.

Both Mr. Joyce and Delegate Wilbur C. Hall, a copatron of the resolution, made statements before the committee, declaring that they did not intend to persecute the commissioner of prohibition, but want to get facts about the operation of the department which they have been unable to obtain.

Both Delegate Warren and Delegate Felts spoke along practically the same line.

SAYS ALLIES DODGE ISSUE

President's Reply on Adriatic Situation Believed to Have Averted Crisis.

Washington, Feb. 20.—The President, in his reply to the allied note with regard to the proposed new settlement of the Adriatic question, is understood to have pointed out to the premier that their argumentative note does not answer his original protest that the Council of Premiers have taken action, to which this nation would be bound without consulting this Government.

President Wilson's reply, now awaiting transmission, does not close the controversy, it was learned today but it is of such a character that it is believed here that it has averted a crisis.

More Than 100 Delegates to Attend 10th Meeting of Washington Masonic National Memori- al Association

The tenth annual convention of the George Washington Masonic National Memorial Association, the purpose of which is the erection of a million dollar temple here to the memory of Washington the Mason, will be one of the most largely attended held in recent years according to C. H. Callahan, secretary of the association.

Mr. Callahan stated today that he had received replies from more than 100 delegates and he expects that when the business sessions begin Monday there will be between 100 and 125 delegates present.

The most important matter will be reports of the finances. The treasurer will make a report of the funds collected during the year. Much progress has been made during the year just closed than any year since the war, the war having thrown a damper on the work of collecting.

FLEE IN NIGHT CLOTHES

Harrisonburg, Va., Feb. 20.—Miss Rosa Carroll, of North Carolina was painfully burned, and Miss Ada Knight, of New Jersey, escaped a similar fate by climbing down a tree from her window when the Episcopal mission house at Simmons Gap, 10 miles east of Elkton, in the Blue Ridge Mountains, was destroyed by fire Tuesday night.

The blaze is believed to have been the result of a defective flue. Miss Carroll and Miss Knight, teachers at the school, were the only occupants of the building at the time.

Miss Carroll rushed down the stairs in an effort to escape, and succeeded only after she had been burned. Miss Knight threw the bed clothing out of her window, caught hold of the limb of a tree and climbed to the ground. Both young women escaped with only their night clothes, being forced out into zero weather when there were several inches of snow on the ground. They used the bed clothes to keep from freezing until they could reach the home of a neighbor. As the mission is located in a remote section, and all physicians being overworked on account of the influenza epidemic, Miss Carroll was unable to secure medical aid until yesterday.

AFTER DRAFT DODGERS

The statement published in yesterday's Gazette to the effect that the government has the names of thousands of young men who failed to register in the latter part of the year 1918 and is determined to enforce the law against such delinquents, disturbed the peace of many who failed to have their names enrolled. The sudden closing of the war led such to suppose that no further action was likely to be taken.

The Baltimore Sun in commenting on the proposed action of the federal authorities says:

"A new drive seems to have started in Washington. This campaign is to be against 'willful draft slackers,' of whom it is computed there are more than 170,000 on the Adjutant General's books. Possibly, for the sake of the future, prosecution of some of these cases may be justified; but having done nothing in regard to them for more than fifteen months after the close of the war, this sudden outburst of military discipline appears rather belated, to say the least.

"Perhaps the real purpose is only to clear the books of these cases, to wind up this part of the war business. Certainly it will be a very serious proceeding if only one-fourth of these 'willful' 170,000 slackers are to be prosecuted in dead earnest. If 40,000 men should be jailed under these proceedings, is there prison room enough to accommodate them?

"In view of the fact that many 'conscientious objectors' were released from prison with a bonus and an apology, 'non pros.' against these slackers. If they are at work now they are rendering important service. Possibly we misapprehend what is proposed, but, if so, a clear statement would help to prevent misunderstandings."

DELINQUENTS FLAYED

Church members who fail to pay their debts were flayed without mercy one night this week in a sermon in Broad Street, (Richmond) Methodist Church by Thurston B. Price, general evangelist of the Southern Methodist Church, who is conducting revival services there. "I don't believe men and women can be good church members unless they keep square with the world," declared the evangelist. Retailers have told me not to talk to them about religion, but to tell the people. Those who will not meet their obligations are stumbling blocks to the progress of the church."

Mr. Price's subject was "Stumbling Blocks to the Progress of the Church." Besides condemning church members for not paying their debts, he cited the church loaded down with unconverted people and the need which so he seemed to think existed for a sentimental religion to die by as hindrances to religion.

"Gypsy Smith conducted evangelistic services in a huge tent on upper King street during the month of

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief. Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses highly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet—cold of the chest (it often prevents pneumonia). WHAT THE RED FLAG REALLY MEANS

A few definitions are in order. One of them concerns the red flag which has been so widely displayed in connection with revolutionary propaganda and which is acclaimed by its followers as the symbol of liberty. Since we already have in this country a flag of red, white and blue which we have associated with that term, it becomes appropriate to inquire what interpretation of "liberty" the red followers have in mind. Clearly it is something different from our own or they would not need another flag to express it. In this matter, as in most other matters, actions speak louder than words. Red actions have spoken most loudly in Russia, and it is there that we can get our best idea of the red purpose toward liberty. One Russian fact stands out prominently—the red purpose toward liberty does not include the liberty of the bourgeoisie; and this brings us to our second definition:

Who constitute the bourgeoisie? In plain language they are the productive class of the nation. Any man or woman who has a farm, a shop, a store or a factory, large or small, or who gives employment to a single other person, is bourgeois. America is largely bourgeois and every working man will become a member of the bourgeoisie if he prospers. In other words, there are no hard and fast classes, but a constant change and progression. For the proletariat to advocate the destruction of the bourgeoisie is for the present to attempt the destruction of the future.

The doctrine of class distinction and class consciousness is anti-American and is menacing to the fundamental principles of our nation. It is perhaps the most primary difference between bolshevism and Americanism. It is the fruit of Russian tyranny and has no place in free America.

Figures For First Two Months of 1920 Break Records in France
Paris, Feb. 20.—The number of marriages in France has increased in the last few months. At one of the Mayoralties in Paris 98 couples went through the civil ceremony last Saturday, which is a record. Figures for the first two months in 1920 are the highest for many years and the number of marriages celebrated thus far this year is double that of the corresponding period in 1914.

BIG PLANT BURNS

Loss \$300,000 in One of Largest Tanneries in South
Asheville, N. C., Feb. 20.—Fire, the origin of which is undetermined, Wednesday night burned many of the main buildings of the Union Tanning Company, at Old Fort, near here.

Conservatives estimates place the loss at \$300,000. The fire department of the village was helpless to combat the flames.

This is the third fire to visit the plant in a year. The plant is one of the largest in the South.

ASKED TO SUBMIT PLAN

London, Feb. 20.—It is understood that the reply of the Allied Premiers to President Wilson's Atlantic note objects to a reopening of the Adriatic question. It is said to declare that circumstances existing when Premiers Lloyd George, Nitti and Clemenceau framed the virtual ultimatum to Jugo-Slavia in January could not be ignored. The President, it is asserted, is told the decision reached last December, to which Mr. Wilson adhered in his note, will be carried out if Mr. Wilson will indicate the way this may be done.

TWO PRETTY KITCHENS

We all spend so much time in our kitchens, why should they not be pretty? We hear much about sanitary kitchens, but there is no reason why they should not be good-looking, as well as sanitary. Two kitchens recently furnished show what can be done along these lines. One is in a small apartment. It is a north room with plenty of light and convenient enough, but it is just the sort of room that might be dreary. Indeed it is a little dream of a kitchen. The walls are covered with paper imitating blue and white tiles. The floor is painted white with a blue border and there are two blue and white wash mats. The shelves are painted white and the very cooking utensils are utilized to carry out the color scheme. They are all blue and white enameled ware and blend into the general harmony most delightfully. "So pretty!" exclaims the proud owner of this charming kitchen, "and so easy to keep clean! I treat my cooking dishes as I do my table dishes and see how well they look." The other kitchen is in a remodeled house in a small country town. Some additions to the house made it possible to take this old sitting room for the present kitchen. So it is a good-sized room with a southern and eastern exposure. This room has been treated in delicate purple shades on the wall. The floor is a rich dark brown and the wash rugs are purple and white and brown and white. Here also enameled ware is used in the scheme of decorations as it is all in lovely shades of purple and rich wood browns. "How lucky you were to get such exactly right shades in your cooking utensils," exclaimed a visitor. The hostess smiled as she said, "Yes! only it happens to be the other way round. I saw these delightful colors in the enameled ware and it gave me the idea of the whole kitchen furnishing. I feel that in having the enameled ware I am not only giving myself pleasure now, but making an investment which will last for a long time."

A SUGARLESS, MILKLESS, EGGLESS PUDDING

The telephone bell rang and as she answered it the housewife's face became worried, though her voice in answering was hospitably cordial. "Five people are on their way here by motor," she then explained to a visiting friend, "and if it is convenient, they want to stay to supper. Of course I told them to come, though how I shall find enough in the house, I don't know." The visiting friend was a resourceful Southern woman. Together they reviewed the somewhat scanty larder and then the guest said, "If you can let me have an enameled ware baking pan, I see how we can have a good, hot dish that I am sure they will all like."

The enameled ware baking pan was quickly procured. The visiting lady requisitioned four cold boiled sweet potatoes, large ones, four bananas and a can of pineapple. After buttering the baking pan she put into it a thick layer of sliced sweet potatoes on these a layer of sliced bananas, then a round of the canned pineapple, pouring at the same time some of the juice over the potatoes and bananas. With layers arranged in this way the dish was filled, the top layer being sweet potatoes well moistened with the pineapple juice. "You see now," said the visiting friend, as she put it in the oven, "why I asked for an enameled ware baking pan. The contents of the dish are pretty solid and must be baked in a pan which will heat through quickly, then the pineapple has a very powerful acid and it is much safer to use it in a vessel which cannot be affected by acids." The pudding proved a tremendous success and the hungry motorists never guessed that it was an emergency dish, new to them, but not infrequent in the South. Try it some time.

COST OF "DRY" LAW

Senator Warren Says the Yearly Total Will Be Fifty Million

Prohibition enforcement will cost the United States fifty million yearly, Senator Warren, chairman of the Appropriations Committee, told the Senate yesterday. A large portion of this sum will have to be expended to guard the borders all the way from Maine to Florida, and along the Gulf Coast and the Mexican line to the northernmost point on the Pacific Coast.

For the purpose of simplifying the work of enforcement, Senator Warren introduced a bill to establish government warehouses, to which the liquor now in bond throughout the country can be transferred. The bill was drawn in the office of Revenue Collector Roper and provides that the government warehouses are to receive spirits upon which the tax has been paid, the government to pay the cost of

removal. A tax of \$8.40 a gallon is to be imposed on liquor taken out of the stocks, and suitable facilities are to be provided in the government warehouses for bottling.

Heavy penalties amounting to a fine double the value of the liquor removed and \$500 additional, or a five-year sentence in prison, or both, are provided for persons taking liquor unlawfully out of the government storage houses.

Senator Smoot suggested that it would be better for the government to purchase all the liquor at a fair profit and thus keep it under control, to be disposed of only under existing laws. He said there was a total of fifty-nine million gallons in storage.

Senator King expressed strong disapproval of the bill introduced by Senator Warren and also of the suggestion made by Senator Smoot. He said he felt called upon to protest against the demands that are being made for appropriations to carry out the enforcement act.

TO RULE ON USE OF BEER

Prohibition Commissioner Will Give Decision Within Few Days

Thirsty Hopeful

Washington, Feb. 20.—Can just

plain old beer be used for medicinal purposes?

This question is causing some further trouble for the enforcers and the interpreters of prohibition legislation also some hope for the few thousand or more thirsty individuals throughout the country who contend beer has always been regarded as having wonderful medicinal properties.

The Volstead Enforcement law did not regard beer as having medicinal value. The law provided for the sale of "spirituous liquors" through prescription of physicians, but no word was said of beer because at that time that "beer was not a fit thing to prescribe."

Now, according to the opinion of many authorities, it is found that there is no legislation to prevent a physician prescribing a barrel of beer every week. In fact, it has been reported that at least one brewery is preparing to produce beer for sale across the counters of drug stores. There seems to be considerable demand for the product.

At the office of the Prohibition Commissioner, it was said yesterday, this question had been presented and that some ruling would be made within a few days.

AFTER GUILTY HUNS

Allies' Lawyers in Paris to Draw Indictment Against War Criminals

London, Feb. 20.—The greatest legal task in the annals of crime will be begun at Paris tomorrow when Lord Birkenhead for Great Britain, M. Ignace for France and J. Jaquemain for Belgium, will commence the work of drafting the indictments against the German alleged war criminals, who are to be tried by the German supreme court at Leipzig.

Lord Birkenhead went to Paris yesterday, accompanied by a large staff of assistants, prepared to examine thousands of pages of evidence collected against the culprits. Separate indictments will be made against everyone of the nearly 50 accused. In each case a list of witnesses in England, France and Belgium will be cited whom the German prosecutors will be able to call when the trials open.

As England calls for the trials of only 97 German nationals, Lord Birkenhead's task will be light as compared with that of the French and Belgian legal staffs.

Aside from the execution of Edith Cavell, the majority of the English cases are outrages perpetrated by boats and Zeppelins and prison atrocities.

The French and Belgian judicial authorities will have to resist a swirling heap of affidavits containing crimes such as the wanton office of civilian lives and the destruction of private property by German armies of occupation. Premier Clemenceau recently told Arthur Balfour that the world would be shocked when it came fully acquainted with the details of the charges against German officers who are accused of having treated young women in eastern France in the manner of native conquerors.

M. Ignace has classified all the crimes in his category of the crimes and the cases are said to be an amazing story of the turpitude created by German military.

BRIDE'S BODY EXHUMED

Charge of Wife Murder

ROME, Feb. 20.—Two developments in the tangled and mysterious case in which Luis Ignatius Mesones, an Italian painter, is charged with the murder of his bride, came light yesterday. The skeleton of a woman known as Maria Rotellini, who was supposed to have committed suicide here years ago, was exhumed and positively identified as that of Mesones. Mesones admitted the court that his wife had disappeared on December 27, 1917, instead of sailing for America, as he insisted hitherto. Indication been given that Mesones will be tried for conspiring with a band of malefactors to kill his wife.

DAUGHTER IDENTIFIES BODY. Pikesville, Md., Feb. 20.—Mrs. Mary Walt yesterday identified the exhumed body of her father, David Gilder, 55 years old, of Pikesville, found near here yesterday.

An Italian, who disappeared when Gilder was first missed, is being sought by the police.

Flu and Week Blood

Down and Liable Condition May Make You a Target For the "Flu"

Because Blood is Probably Thin This Time of Danger, Take Pepto-Mangan—It Builds Rich, Red Blood

No matter how well you usually feel, if temporarily you're run down, you are a target for the influenza. Contagion always gets listless people. First, whether they realize it or not, their blood is thin and undernourished—in no condition to fight the germs it meets everywhere. It is a wise precaution to take a tonic at this time of danger—a well-known builder of red, vigorous blood, like Pepto-Mangan. And if you did not think of this time—if you are now recovering from a fight with influenza—you will need help for weeks after you think the danger is past.

Take no unnecessary chances. Get Pepto-Mangan and start taking it today. Pepto-Mangan is an effective blood builder that has had the endorsement of physicians for years. Pepto-Mangan is sold by druggists in either liquid or tablet form, just as preferred. There is no difference in medicinal value. Be sure you get the genuine Pepto-Mangan. Ask for Sude's Pepto-Mangan and be sure the name is on the package.

HOPES TO RETIRE MAY

Hines Expected to Have Railroad Affairs in Shape by Then

Washington, Feb. 20.—Director General Hines said yesterday he hoped to see the work of liquidation of railroad affairs reach a point where he will be justified in retiring from the Railroad Administration about May 1, two months after the roads are returned to private control.

By the time Mr. Hines retires it was expected that there would be left for consideration only questions of law and accounting. These will be handled by divisions which Mr. Hines already has created and which will begin their work promptly March 1.

Mr. Hines said that while he had not definitely decided as to his future connections he probably would resume the practice of law in New York.

HALT WATER PROBE

Congressional Body Investigates Hampton Roads Station

Norfolk, Va., Feb. 20.—Investigation of the House naval affairs committee into the Norfolk water supply situation, in which the ability of the city to meet the water demands of the Hampton Roads naval base, was halted Wednesday after its inauguration by the raising of the question of whether or not the city was obligated by contract or agreement to furnish the base's water supply.

That such a contract, calling for a water supply up to 5,000,000 gallons a day was in force until June 1, 1919, was established. Naval officials, declaring the contract had been renewed, were unable to produce documentary proofs.

VIRGINIA NEWS

Discovery of a pint of whisky in a handsome touring car in Danville has led to the confiscation of the machine by agents of the Government and the holding of two white men and a negro for the State grand jury. They will also be tried in the Federal court. The car belonged to C. K. Carter, proprietor of a local garage, from whom it was engaged by Bud Foster, a negro transfer driver. Foster is under bond, also Frank Dellar and Charles Altier.

Objecting to going to Virginia Hospital, Richmond, Walter Mayo, 58 years old, inmate of the city home, shot himself through the heart and died in a few moments.

Compensation of members of the general assembly is doubled under the provisions of an act offered yesterday in the house of delegates. The speaker's salary is fixed at \$1,440, against \$720, the present rate. The salary of members would be increased from \$500 to \$1,000. A regular session costs the State about \$100,000, and special sessions, \$50,000. The bill has been referred to the committee on finance.

After a short executive session the social and moral welfare committee of the house of delegates yesterday reported favorably the resolution calling for a "complete investigation" of the State prohibition department. The resolution, however, was amended to eliminate the governor from having any hand in appointing the committee on investigation. The Rev. David Hepburn of the Anti-Saloon League of Virginia, said that there was no disposition on the part of the prohibition department to avoid an investigation. He did not, however, desire to see such an inquiry prosecuted by the enemies of prohibition. "Do I infer that you would imply that the governor of Virginia would not be fair in his appointments also?" queried Delegate Joyce. "You may infer what you please," replied Mr. Hepburn.

Milton K. Hirschberg, 38 years old, who served as head chef aboard the George Washington when that vessel carried President Wilson and party over to the Peace Conference and also when they returned, pleaded guilty in court in Richmond yesterday to the charge of stealing \$1,100 from his former employer, Walter Kirsch, proprietor of the Richmond Inn. Judge Richardson suspended judgment until March 2. Through his attorney, Hirschberg expressed regret for what he had done and said that he surrendered to the police in Mobile recently because his conscience hurt him. He had lost most of the money betting on horse races in New Orleans. Kirsch indicated that he did not care to press the charge and would take Hirschberg back as his manager if the latter cared to return.

Word was received in Danville last night that a warrant had been issued for the arrest of Roscoe Tuck, cashier of the Virginia Citizens' Bank in Halifax county. It is understood that Tuck has fled while the State Bank Examiner has discovered a shortage of approximately \$40,000 in the bank. It was stated that the directors of the bank had agreed to pay depositors in full and that the doors of the institution would remain open. The bank is capitalized at \$20,000, with a surplus of \$5,000.

Representative E. W. Saunders yesterday handed to Speaker Gillett his resignation as a member of Congress from the fifth Virginia district to take effect February 29. Saunders will become a Supreme Court justice in his State.

The State Corporation Commission has granted a charter to the Frank M. Hutchison Company, Inc., building contractors, of Rosslyn; maximum capital stock, \$50,000. Officers: M. Frank Hutchison, of Herndon, president; George B. Frazier, Rosslyn, secretary, and C. A. Hoffert, of Washington.

An urgent appeal/volunteer doctors to have their practice and go to Tom's Creek, about 40 miles from Bristol, to assist in treating between 400 and 500 cases of influenza reported by city authorities to be raging there, will receive consideration at a meeting of physicians today.

Assistant Attorney Hanks of Richmond last night announced that the bill offered by Senator Mapp providing for machinery by means of which women will be permitted to vote in event the Anthony amendment is adopted was unconstitutional, and therefore could not be enacted by the legislature.

C. Harding Walker, of Northumberland county, one of the State's prominent lawyers, for a long time president pro tempore of the State Senate, will be a candidate for lieutenant governor of Virginia.

LOWERING HIGH PRICES

This question was treated seriously by the Press of the country some months ago, and relief in the form of lower prices promised. After Federal investigation, prices showed, instead of a decline a greater increase than ever before. Now reference to it by any paper must appear to all as a joke. Prices for spring in all lines of merchandise are high and fall prices are still higher. Our efforts to meet this condition and relieve the increasing cost—is to combine the buying of all our stores, thereby securing lower prices. The outlet must be created, our profit sharing sales weekly, and the new monthly sale of "Clover Day" gives us the outlet. Our bargains command attention, and we promise satisfaction.

PREPARE FOR WOMEN VOTE

Will be Forced to Register as "New" Voters Under Measure Proposed in Assembly

Richmond, Feb. 20.—Machinery for enabling women to vote in Virginia this year in case the Federal suffrage amendment is ratified before the presidential election, is provided in a bill introduced in the Senate Wednesday. The measure has as its sponsors Senators Mapp, Corbitt, Chastant, Paul, Robertson, Trimble, Byrd, Harrison, Haggard, Cannon, George, Parsons, Russell, Francis and West.

The bill serves to make certain compliance with every provision of the Constitution and the status on the part of women when the ballot is accorded them.

Under provisions of the measure women will have to register as "new voters," contemplated in the Constitution. They will have to pay the poll tax of \$1.50 in advance, as is the requirement for men at this time.

The "bill is provisional," becoming operative only in case of ratification of the Susan B. Anthony amendment prior to the presidential election.

As "new" voters, women will have to pay the poll tax six months prior to voting in their first general election, but after the first election when they shall have been registered they will have to pay no more than a few, six months prior to the next election succeeding such payment.

WOULD HANG ERZBERGER

Speeches at German League Meeting Are Marked With Reactionary Outbreaks

Berlin, Feb. 20.—At this week's session of the League of German Agrarians, the speeches of the members were punctuated with "hang him" when the name of Blumhagen Erberger, vice premier and minister of finance, was mentioned.

The speeches again were marked by the familiar reactionary outbreaks. The chairman, Herr von Vagenheim, urged that labor agitators, who he declared constantly were inciting farm hands to strikes and new wage demands, should be unmercifully dealt with in order to end "sabotage" of the agricultural production.

LISTEN HEAD, FINDS WIFE

Farmer Soldier Was Reported Killed on Battlefield

New York, Feb. 20.—John C. Ries, an American soldier, who had been listed officially as killed and who returned from overseas to find his wife married again, was granted a decree of absolute divorce Wednesday in the Brooklyn Supreme Court. Ries served with a machine gun company of the 27th Division. He was used, wounded and left for dead on the battlefield. Later he was picked up and sent to a hospital. His wife, Mrs. Ries, who was living in Easton, Pa., received official notice of his death and she later married Harry Holmquist.

SUB-TREASURIES TO GO

Baltimore Office Among Those Put Under Ban by House Committee Wash., Feb. 20.—Abolishment of the nine sub-treasuries, the offices of 13 State surveyors-general and 2 assay offices is proposed in the Legislative Appropriations bill, reported Wednesday by the House Appropriation Committee. A reduction of \$18,000,000 from department estimates for clerk hire and miscellaneous expenses was made, but the bill's total of \$104,124,000 is one of the largest peacetime legislative appropriations on record.

They say "fine feathers make fine birds." There's lots of wisdom in these words, suggests Dainty Dorothy.

Clothes wisdom means clothing thriftiness these days. Even if papa's from Pittsburgh he has cast a stern and forbidding eye in the direction of clothes extravagance. He is having his old suits cleaned and pressed, and found out that some of them didn't show a trace of wear. And he is asking mamma and daughter to fall in line and keep step.
